

UDEOKOLIE STEPHEN

Software Engineer | Full-Stack Developer

Lagos, Nigeria | +2347081897992 | udeokoliestephen@gmail.com

SUMMARY

Results-driven Software Engineer with over 2 years of experience in full-stack development, specialising in clean, performant, and responsive web applications using React and Node.js. Recently shipped a production-ready PWA solo in under 48 hours and now leads frontend development on a multi-developer team build. Translates complex requirements into elegant, scalable digital experiences that deliver tangible business value.

TECHNICAL SKILLS

Frontend: React.js, Next.js, React Native, Redux, Zustand, HTML, CSS, JavaScript, TypeScript

Backend: Node.js, Express.js, Python, Supabase

Styling: Tailwind CSS, Bootstrap, Material UI, Webflow

Tools & Version Control: Git, GitHub, VS Code, Vercel

Other: Problem-Solving, Team Collaboration, Project Coordination, Task Management, Stakeholder Communication, Data Organisation and Reporting, Customer Support, Agile Methodologies, Responsive Design

WORK EXPERIENCE

Frontend Developer | ProQAR (Construction Site Inspection PWA) *Jun 2026 - Present*

- Built and deployed a fully functional PWA demo solo in under 48 hours, using React 18, Tailwind CSS, Zustand, Dexie.js, Workbox, Konva.js, jsPDF, Supabase, Paystack, and Vercel.
- Secured a frontend developer role on the expanded team build after the demo led to a full client engagement, now responsible for core UI architecture and frontend implementation.
- Implemented offline-first functionality, in-app PDF report generation, and payment integration to support real-world field inspection workflows.

Software Engineer | 100Devs *Jan 2022 - Aug 2024*

- Developed and deployed scalable, user-friendly MERN stack web applications within agile teams, ensuring robust performance and responsiveness.
- Implemented full-stack solutions, applying best practices through rigorous code reviews and collaborative pair programming to significantly enhance deployment quality.

Public Relations & Travel Operations Intern | Afari Travels and Tours *Nov 2025 - Jan 2026*

- Orchestrated communication and engagement strategies for diverse travel packages, achieving significant enhancements in brand visibility and customer outreach whilst managing travel operations.
- Managed client relationships and travel logistics, ensuring seamless travel experiences by coordinating itineraries, resolving issues promptly, and guaranteeing on-time departures. Leveraged Microsoft Office Suite and Google Workspace to streamline administrative processes and optimise service delivery documentation.

Intern (IEUK 2025 Programme) | IEUK (Internship Experience UK) *2025*

- Participated in a comprehensive UK-focused internship programme, cultivating professional skills in cross-cultural communication and collaborative environments.
- Engaged in practical projects and workshops, contributing to real-world business challenges and deepening understanding of UK work culture.

EDUCATION

BSc Computer Science & Software Engineering | Global Wealth University (Jan 2024 - Present)
